

Move to the **ISLE OF MAN**

***A Better Place to
Base Your
Business — 0%
Corporation Tax.***

It has **never been easier** to operate a business from the Isle of Man and benefit from **0% corporation tax**.

In today's economy, money and operations are mobile, while markets are not. You can trade with UK and international clients, remain within the UK VAT system, and maintain commercial credibility — while basing your company in a **separate legal and tax jurisdiction**.

For most trading companies, the Isle of Man offers **0% corporation tax**, long-standing policy stability, and a well-regulated environment that supports legitimate business growth. Profits remain inside the company, allowing capital to compound faster and be reinvested more efficiently.

At the same time, the Isle of Man is highly accessible. With regular flights to London and major UK cities, many residents can leave home and be in Canary Wharf for a 9am meeting. You stay connected to the market — without being based in it.

The Island also offers a high quality of life: a safe environment, strong infrastructure, and a calm, practical alternative to the UK — with low personal taxes for those who choose to relocate personally as well as commercially.

Whether you are considering:

- Moving your company to benefit from **0% corporation tax**
- Relocating personally for lower personal taxes and a better lifestyle
- Or combining both over time

We, together with our licensed Isle of Man partners, support you through each step — ensuring the structure is compliant, practical, and built to last.

THE ISLE OF MAN IS NOT ABOUT SHORTCUTS.

It is about choosing the right place to operate in a world where capital is increasingly mobile.

**0%
CORPORATION
TAX IS JUST
25 MINUTES
AWAY**

The Isle of Man offers something increasingly rare:
a stable, well-regulated jurisdiction with **0% corporation tax**, strong infrastructure, and a high quality of life — all within easy reach of the UK.

Just **25 minutes from Liverpool by plane**, the Island is a practical base for business owners and professionals who want to reduce tax without disconnecting from their markets.

MONEY IS MOBILE. MARKETS ARE NOT.

In today's economy, **money moves freely**.

Capital, payments, and operations can be placed almost anywhere in the world. Banking and business are no longer tied to a single location.

Markets, however, are not.

You cannot move a market like the UK.

You cannot relocate its customers, its commercial gravity, or its legal framework.

And you don't need to.

The opportunity is to **keep the market**, while choosing a better place to be based.

0% CORPORATION TAX — WITHOUT LEAVING THE MARKET

For most trading companies, the Isle of Man operates a **0% rate of corporation tax**.

This is not a loophole or a temporary incentive. It is long-standing policy, fully compliant with international standards, and central to how the Island attracts and supports business.

The effect is simple but powerful:

- Profits are not eroded by corporation tax
- More capital remains inside the business
- Reinvestment and growth compound faster
- Cashflow pressure is reduced

Over time, the difference between paying UK corporation tax and **paying 0%** is substantial — particularly for profitable or growing businesses.

**KEEP THE UK
MARKET.
CHANGE THE
BASE.**

The Isle of Man is uniquely positioned.

It allows you to:

- Trade with UK clients
- Operate within the UK VAT area
- Maintain UK banking and commercial credibility

While benefiting from:

- **0% corporation tax**
- A separate legal and tax jurisdiction
- Reduced regulatory complexity
- Predictable, stable policy

YOU ARE NOT OFFSHORING YOUR MARKET.

*You are **optimising where value is created and taxed.***

CLOSE TO THE UK — WITHOUT BEING IN IT

Despite its independence, the Isle of Man is **exceptionally well connected.**

With early morning flights, it is entirely feasible to **leave your home on the Island and be in Canary Wharf for a 9am meeting.** Many residents do exactly that — travelling into London when needed, while enjoying a very different pace of life the rest of the time.

The Island has regular air connections to:

- London
- Manchester
- Liverpool
- Bristol
- Dublin

YOU'RE NOT CUTTING YOURSELF OFF FROM THE UK OR EUROPE

you're simply choosing a better place to be based.

LIVE WELL, NOT JUST EFFICIENTLY

The Isle of Man is not a compromise destination.

It offers:

- Beautiful beaches and coastline
- Clean air, open space, and short commutes
- A safe, low-crime environment
- Strong healthcare, education, and infrastructure

Many people move initially for tax reasons — and stay because life is simply better.

TWO WAYS TO MOVE — BOTH SUPPORTED

There is no single “correct” route. The right approach depends on your objectives.

1. Move personally

You may choose to relocate as an individual, becoming tax resident in the Isle of Man and benefiting from:

- Lower personal taxes
- A clear, transparent tax system
- A calmer, safer, higher-quality lifestyle

This suits professionals, investors, and business owners whose income is already mobile.

2. Move your business — or both

You may also choose to establish or expand a business presence in the Isle of Man.

Common approaches include:

- Creating a new Isle of Man company alongside an existing UK company
- Registering the same trading name (the Isle of Man has a **separate company registry**)
- Using the Isle of Man company for new clients, new markets, or expansion
- Making the Isle of Man the holding or operating centre of a wider group

Company formation and structuring are handled **through licensed Isle of Man corporate service providers**, with whom we work closely to ensure the structure is appropriate and compliant.

IMPORTANT DISTINCTION: COMPANY TAX VS PERSONAL TAX

It's important to be clear:

- **0% corporation tax applies to the company**
- Personal tax depends on where you are resident

If you remain UK tax resident:

- UK personal tax will still apply to dividends or income received

For many businesses, a company-only move still makes sense — particularly where profits are retained, reinvested, or used for growth.

For others, combining **business relocation with personal relocation** delivers the full benefit.

Structure matters.

SUBSTANCE IS NOT OPTIONAL

An Isle of Man company must have **real presence and real activity**.

In practice, this means:

- At least one **Isle of Man-resident director**
- A **physical office** on the Island
- Local staff and operational capability appropriate to the business

These requirements are fulfilled through **licensed providers and local partners**, ensuring management, decision-making, and substance are genuinely based on the Island.

As functions such as IT, marketing, administration, or management are moved into the Isle of Man company, costs are typically comparable to services already paid for elsewhere — with the key difference being **where decisions are made and profits are taxed**.

HOW WE HELP MAKE IT WORK

Relocating to the Isle of Man is not just about incorporation or logistics. It's about **making the move successful in practice.**

We act as your ongoing tax and compliance partner, working alongside a network of licensed and regulated Isle of Man providers to support you whether you:

- Move personally
- Move your business
- Or do both, immediately or over time

Our role, and how our partners support you

COMPANY FORMATION AND STRUCTURING

Handled by licensed corporate service providers. We coordinate the process, advise on structure, and ensure everything aligns with your commercial and tax objectives.

BANKING SUPPORT

Introductions and account opening are handled by regulated banking partners. We support the process by coordinating information and ensuring the structure is presented clearly and consistently.

REGISTERED AGENT AND TAX COMPLIANCE

We act as your registered agent for tax purposes, ensuring tax returns, submissions, and annual accounts are prepared accurately and filed on time.

FLEXIBLE FINANCE SUPPORT

We can operate as an outsourced finance and tax function — or work alongside your existing accountant or finance team. They may retain bookkeeping responsibilities, while we handle Isle of Man tax filings and statutory reporting.

RECRUITMENT AND LOCAL PRESENCE

Through trusted local partners, we assist with sourcing Isle of Man-based directors and staff to ensure genuine operational substance.

OFFICE, IT, AND OPERATIONAL SETUP

We introduce and coordinate with local providers for office space, IT systems, websites, and marketing — helping bring your Isle of Man business to life in a practical, compliant way.

With experienced professionals on the Island, you have access to **on-the-ground expertise**, without needing to manage multiple providers yourself.

A PRACTICAL MOVE — DONE PROPERLY

The Isle of Man is not about shortcuts or paper structures.

It is about:

- Choosing where you are based
- Building real substance
- Aligning where value is created with where it is taxed

**DONE PROPERLY, THIS IS A LONG-TERM,
STABLE SOLUTION — NOT A TEMPORARY FIX.**

THE TAKEAWAY

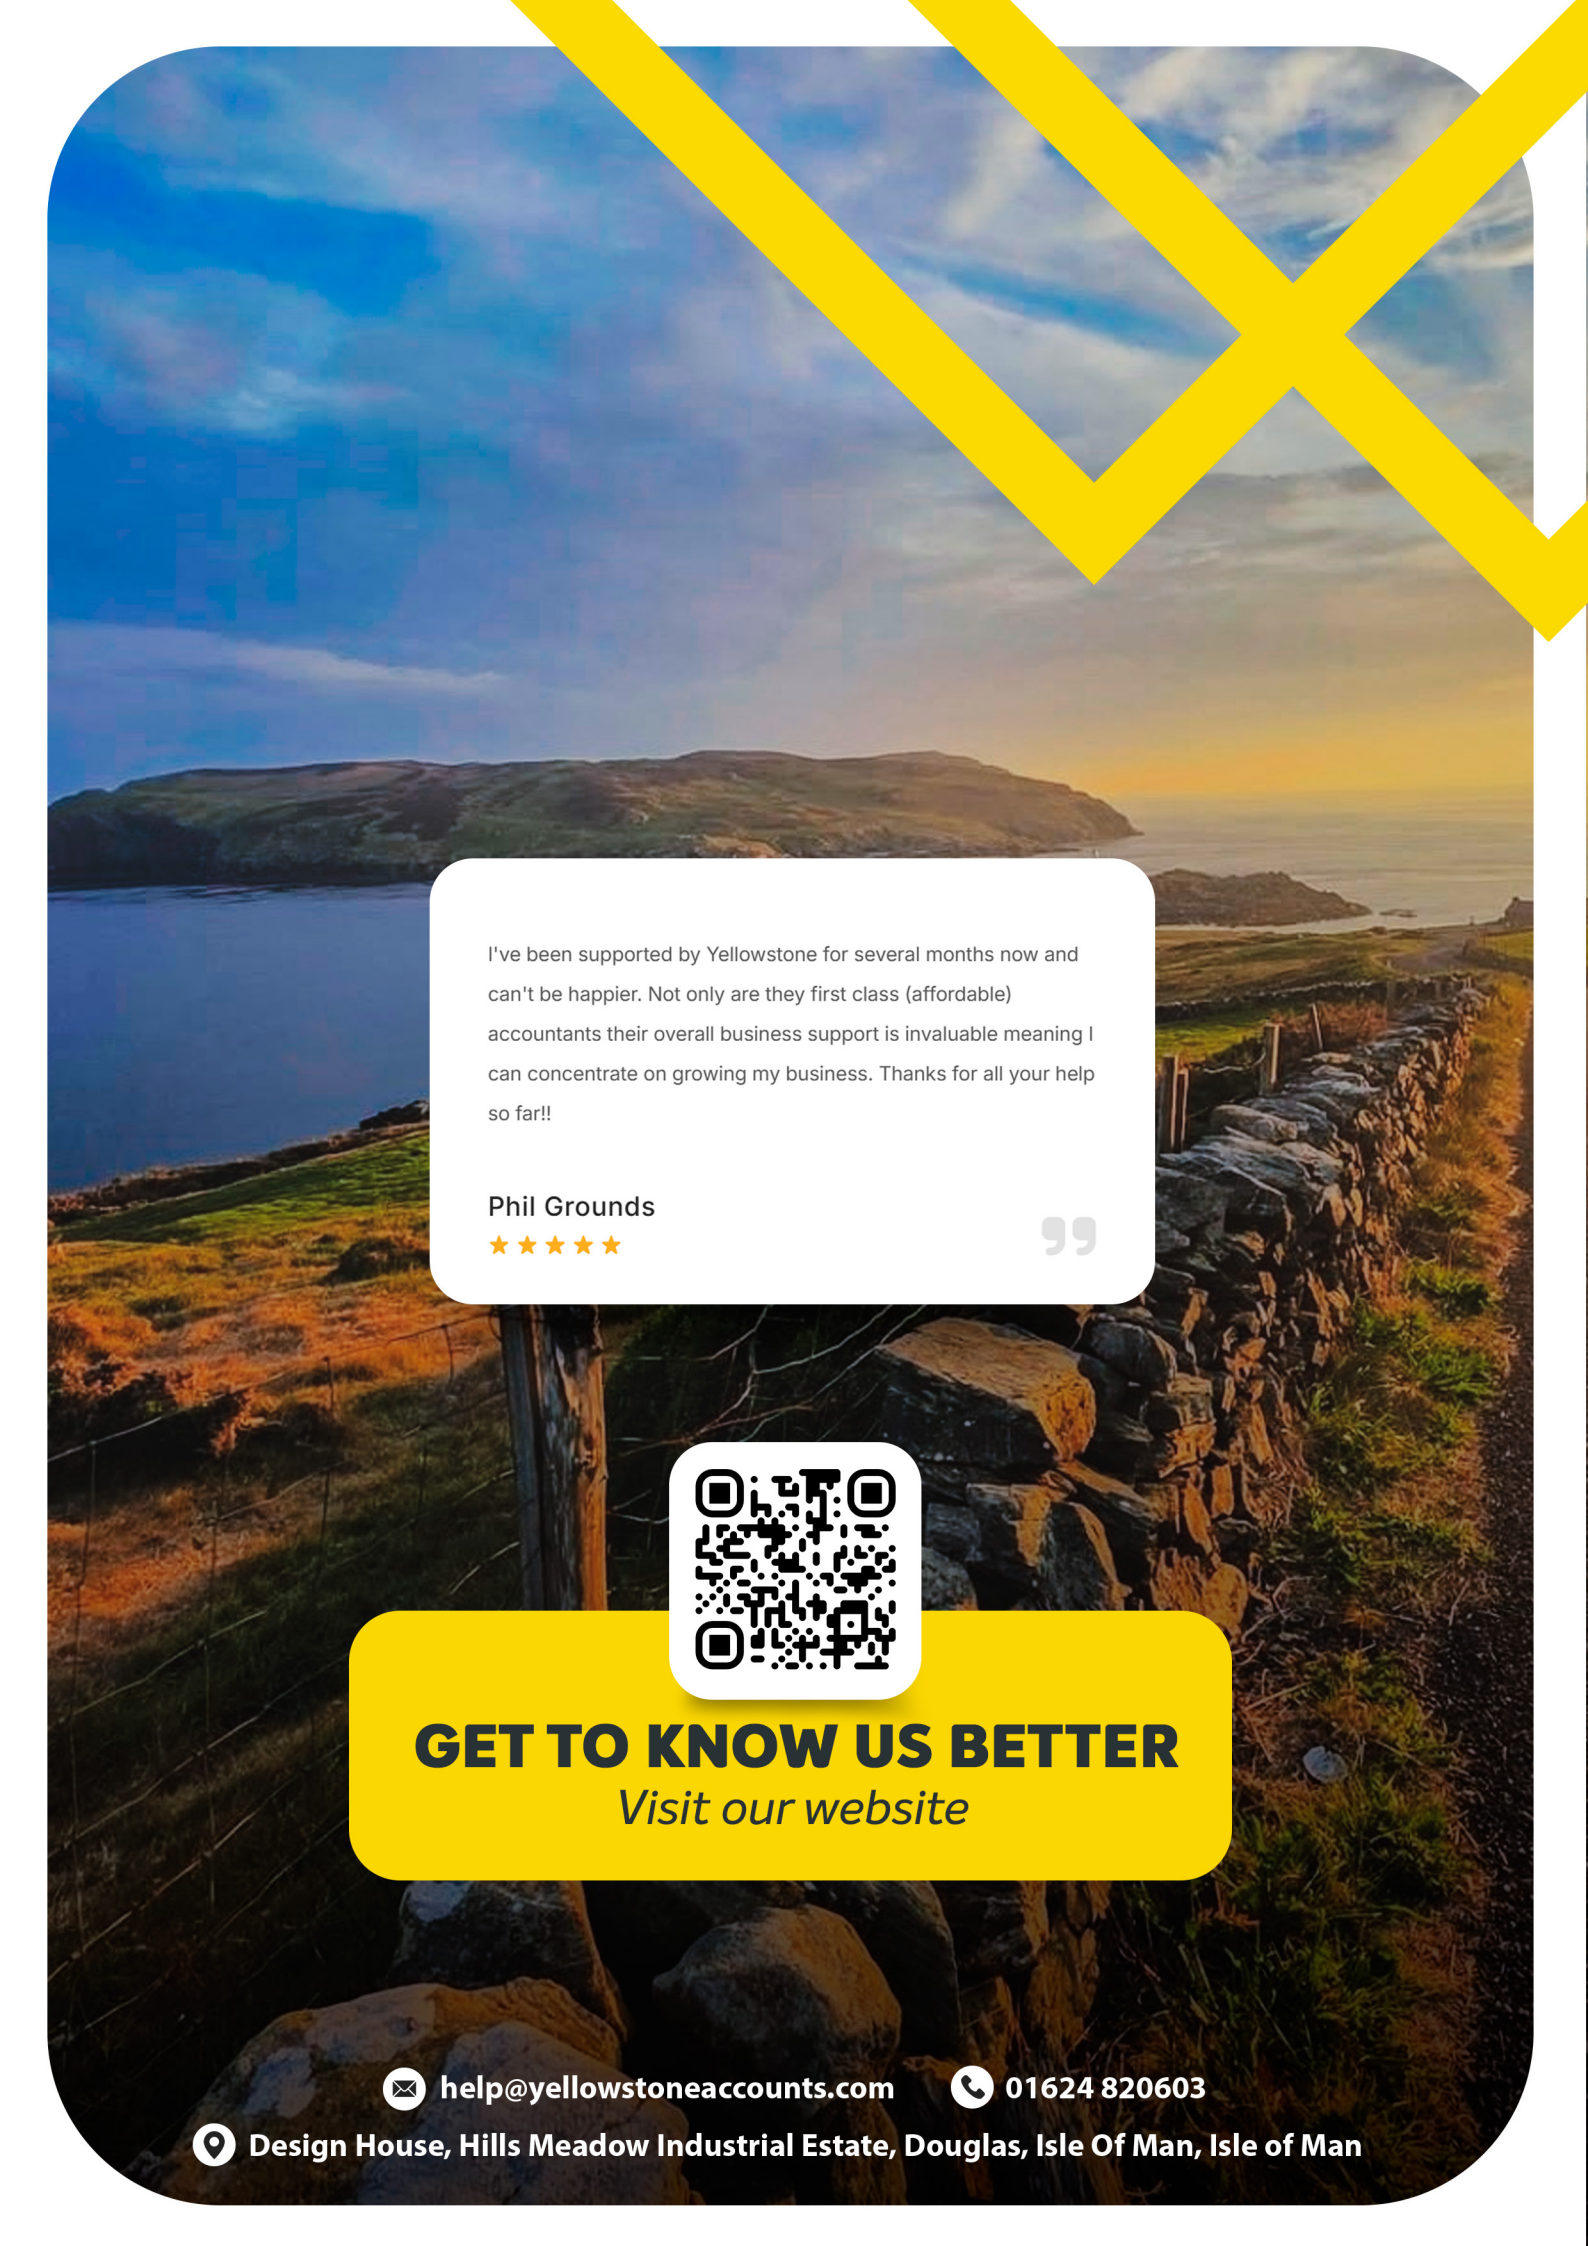

The Isle of Man offers:

- **0% corporation tax**
- Competitive personal taxation
- Strong infrastructure
- Proximity to the UK
- A genuinely high quality of life

Whether your move is personal, commercial, or both,

**WE AND OUR LICENSED
PARTNERS CAN
SUPPORT YOU**

*properly, compliantly, and with experienced professionals
on the ground.*

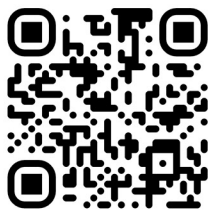

I've been supported by Yellowstone for several months now and can't be happier. Not only are they first class (affordable) accountants their overall business support is invaluable meaning I can concentrate on growing my business. Thanks for all your help so far!!
